

GO ON AN ADVENTURE, ANYTIME!

With a membership you can be a part of the Haggin Museum all year long.

In 1928, the San Joaquin Pioneer and Historical Society was looking to build a history museum but had been unable to raise enough funds. Stockton native Robert T. McKee offered the group \$30,000 on behalf of his wife, Eila Haggin McKee, who had only two requirements: name the museum in honor of her late father, Louis Terah Haggin; and add an art wing to fill with paintings from her father's collection.

The history galleries focus on the San Joaquin Valley's past and the accomplishments of its residents, such as Charles Weber, Stockton's founder; Benjamin Holt, inventor of the Caterpillar track-type tractor; Tillie Lewis, the "Tomato Queen" and the Stephens Bros. Boat Builders. The history galleries offer families a chance to travel back in time to learn more about Stockton and California history.

On display in the museum's fine art galleries are dozens of paintings by renowned 19th- and early 20th-century American and European artists. The Haggin has the largest museum collection of major works by Albert Bierstadt, including breathtaking panoramas of Yosemite Valley. Haggin Museum also houses the largest museum collection of original art works by "Golden Age" illustrator J.C. Leyendecker.

The Junior Women's Group and the Haggin Museum would like to thank you for visiting Stockton's treasure. We hope you visit the museum again!

A trip to Stockton isn't complete without a visit to the Haggin Museum & Museum Store.

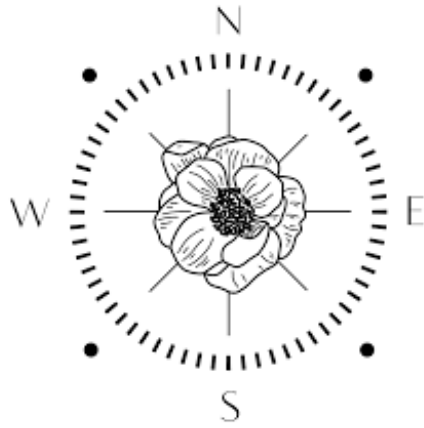

**Spring
Treasure Hunt**

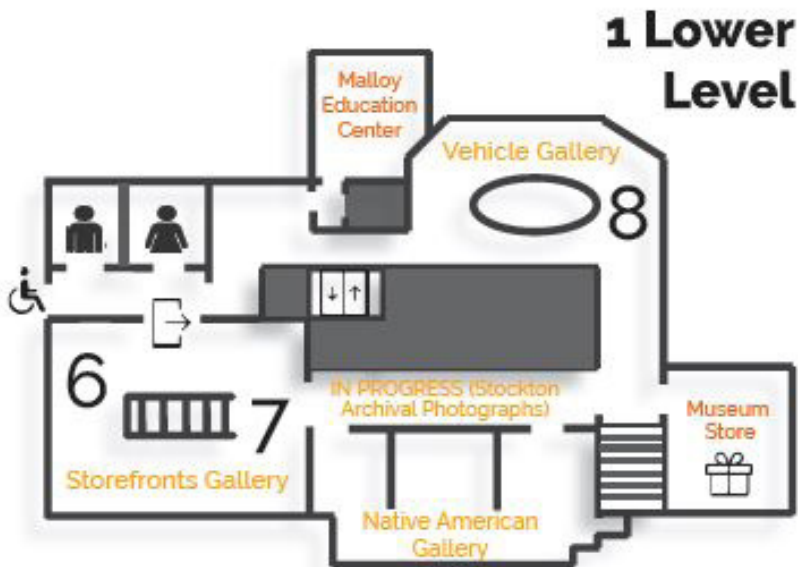

**presented by
Junior Women's Group**

Take a trip of wonder through the Museum. Follow the clues in this guide through the history and art galleries to track down characters, places and objects in art and Stockton history.

Use the maps below to navigate the museum. Please remember not to touch anything when you are visiting the museum.

Have fun on your treasure hunt!

1. You are in the **Hull Gallery** at the Visitor Services Desk, make a left turn and go into the **American Art Gallery**. Look for the painting that has the most dogs.

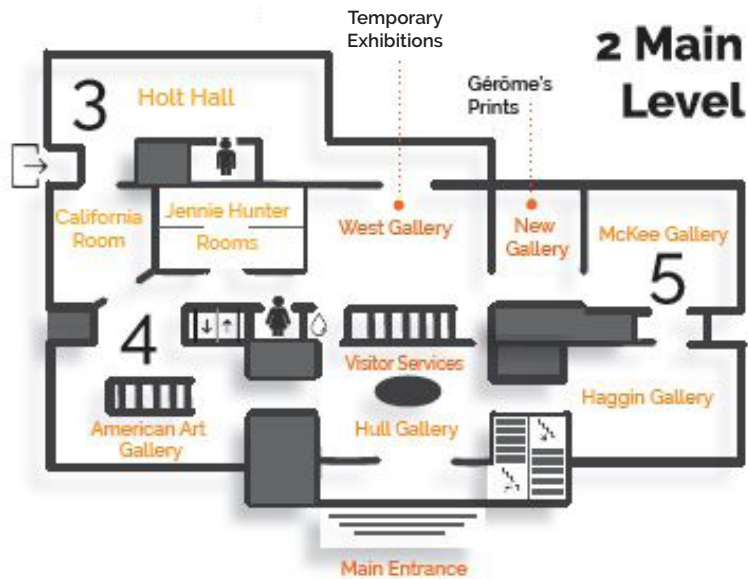

2. Head down the big staircase to the **Storefronts Gallery**. At the bottom of the steps look for the Chinese Herb Shop. Look in the window and find the abacus, or counting frame, on the counter in the middle of the room. How many mortar and pestle (a tool used to crush or grind ingredients) are to the right of the abacus?

3. Keep walking down the wooden sidewalk and make a right turn into the **Native American Gallery**. What is the Miwok Native American hut covered in?

4. After you exit the Native American Gallery, turn right, then a left at the Museum Store. Can you find something in the **Vehicle Gallery** that was used to put out fires?

5. Head back up the staircase past the **Museum Store** (stop by to see the Haggin inspired gifts!) and go back into the Hull Gallery, turn right into the **Haggin Gallery**. You will see many wonderful paintings of life long ago. Find *King of the Herd*. Can you find a butterfly, a frog, and two small birds?

6. Go into the next gallery, the **McKee Gallery**, and look for the painting *Les Désguisés*. Marie Laurencin displayed her Cubist-inspired art with what famous artist? Keep walking into the **New Gallery**. Do you see things that you can wear on your head?

7. Move into the **West Gallery** to view *Stockton Art League Juried Exhibition*. On the right is the entrance to **Holt Hall** (look for the brick wall and display case), named for the Caterpillar tractor built in the early 1900s by Benjamin Holt. Can you find the giant vacuum cooker? Does the shiny copper top remind you of anything?

8. As you leave Holt Hall and go to the **California Room** you will find the story of the people who came to live in the San Joaquin Valley. What is on the floor of the California Room?

9. Head to the elevator. Look at the case to the right of the elevator displaying toys. Can you find the baseball bat? Take the elevator to the 3rd floor. Take a moment to view the second half of Stockton Art League's Exhibition in the **Tuleberg Gallery**.

10. Go into the **Leyendecker Gallery**. Leyendecker was one of the most successful illustrators of his time! He created covers for magazines, cereal boxes and advertisements for clothes. Find the *Queen of Spring*. How many winged creatures can you find?
